

Leadership Team

Alex Nieves, President

Mr. Nieves is the President of ManTech CSI, responsible for oversight of all operations functions of the organization, as well as product research, development and strategic planning. Alex also leads ManTech International's Cyber Security & Operations sector as the Senior Vice President. He has lead his team at ManTech to develop and support multiple global cyber operations and establish a network of cyber laboratories in support of U.S. Government customer missions for more than 9 years, with more than 24 years of experience supporting cyber operations, information operations and investigations.

Alex came to ManTech International after serving as a member of the U.S. Air Force as an Air Force Special Agent with the Air Force Office of Special Investigations (AFOSI) responsible for counterespionage, counterterrorism, intelligence, computer crimes investigations and cyber security operations. Prior to becoming a Special Agent, he also served as a special weapons and tactics operations chief and Information Operations Agent assigned to the Combined Defense Operations Center. Mr. Nieves began his career in the Air Force as part of the Air Force Security Forces Law Enforcement Unit.

While serving in the military on assignments worldwide, Mr Nieves dedicated his time to undergraduate studies in Criminal Justice, Information Systems Management and Business Management from, AFCC, Troy State University and National University.

Alex holds a B.S. in Business Management & Leadership from National University.

Tiffany Gates, Vice President

Ms. Gates is the Vice President of ManTech CSI, responsible for managing operations for the organization, to include research and development, production and strategic planning. Ms. Gates is the Chief Technology Officer (CTO) and a Vice President within ManTech International, Security & Mission Assurance Business Unit and Deputy Chief of the Cyber Security and Operations sector.

Tiffany came to ManTech International from a recent acquisition of her company, Emerging Technologies Group, USA in August 2009. She served as the President and CEO of ETG for more than five years with a successful track record of growth, recognition in the computer forensics and analysis community and successful coordination of global operations. Prior to her role as President and CEO, Tiffany served as ETG's Corporate Vice President and Chief Operations Officer to DoD and U.S. Government customers. Prior to her experience at ETG, Tiffany served as a consultant to a National Security/Information Assurance Team for the Commander,

Naval Security Group and supported construction of C4ISR architectures for the Information Operations and Maritime Cryptologic Architecture Program. She also worked with the National Security Agency as a technical analyst specializing in counterintelligence threats posed by Information Technology. Tiffany served in the U.S. Navy as a Cryptologic Officer for more than 7 years.

Tiffany holds a B.S. degree from the United States Naval Academy in Annapolis, MD.

Michael W. Tanji, Product Development Manager

Michael Tanji is the ManTech CSI Commercial Sales Manager, responsible for developing commercial business relationships and new product development.

Michael came to ManTech International Corporation after several years in the financial services industry, where he used his expertise to build and manage a security intelligence capability for a major US financial institution. Formerly a supervisory intelligence officer, Michael served nearly 20 years in the US intelligence community, working at several different intelligence agencies and on issues as diverse as media exploitation, indications and warning, and information operations. He has been a participant in a number of national and international intelligence analysis and policy efforts, including projects for the National Intelligence Council, the National Security Council and NATO. Trained in both signals and human intelligence disciplines, he has

served in a variety of tactical and strategic intelligence assignments worldwide, including Operations Desert Storm and Allied Force.

Michael holds an M.A. from The George Washington University and a B.S. from Hawaii Pacific University.

An adjunct lecturer at George Washington and George Mason Universities, Mr. Tanji's opinions on intelligence and security issues have been reported in national newspapers, periodicals, journals, and radio. Michael is a Claremont Institute Lincoln Fellow and the editor of *Threats in the Age of Obama*, a collection of essays on national security issues.

About ManTech CSI

ManTech CSI is headquartered in Vienna, VA, is a wholly owned subsidiary of ManTech International Corporation (www.mantech.com). ManTech CSI specializes in the development of products and security solutions for federal, state and local governments as well as commercial enterprises. ManTech CSI leverages the advanced capabilities of ManTech's numerous research and development laboratories to produce new products that solve the hardest problems in the cyber field.
